Jolly
heap

Dozens of needs **one tool**

JollyHeap creates a **complete environment** that supports a wide range of children's developmental needs.

Active play

Integration and teamwork

Creativity stimulation

Sensory and motor development

Self-regulation and calming

*JollyHeap blocks let you **freely shape spaces for work, therapy, rest, and play** — the child's entire environment.*

*Their countless construction possibilities allow you to create structures **tailored to a child's individual limitations and challenges.***

Paweł Zawitkowski, Child Therapist

JollyHeap = A parent's love + **a child's needs**

Created **by a father for his son**, who — seeking calm and creative challenges — used to build bases and hiding places from blankets and pillows. These simple materials, however, did not fully meet the needs of a young engineer.

Seeing the passion with which Michael tried to bring his ideas to life, Aleksander designed a tool that **today supports the development of thousands of children** around the world.

A Sensory **heaven**

Softness and lightness that soothe the senses

Hold them in your hands and feel **how soothing play with JollyHeap blocks can be**. The pleasant click when the blocks connect and the gentle decompression as they release **can calm even the most energetic little mischief-maker.**

Quality That Lasts for Years

We understand that investing in building blocks is a significant decision, which is why we designed them to withstand many years of intensive use.

Six years in a playroom? No challenge at all.

After six years of daily use in a play centre, the blocks at *Klockownia* were still in such good condition that we were able to use them for a commercial photo shoot without any issues.

Our blocks are handcrafted in Poland.

Wash Like Regular Clothing

JollyHeap blocks can **be washed at 30°C using mild laundry detergents**.

No special chemicals, no need to remove the cover — simply put them in, take them out and they're clean.

How are JollyHeap® blocks made?

12x12cm

150g

DID YOU KNOW?

Crafting one block takes around 30 minutes, and a set... 50 hours

Safety Comes First

Six people are involved in the production of each block, carefully checking the quality of every previous stage — ensuring the **blocks can withstand even the most adventurous little explorers**.

Strong magnets

Neodymium magnets ensure a strong and stable connection

Soft foam

Highly elastic, resilient, and safe. Always returns to shape

Durable fabric

Solid and pleasant to the touch. The fabric has a dense weave and high grammage

These blocks are certified:

EN 71-1, EN 71-2, EN 71-3

What can i do
with JollyHeap® blocks?

Figures

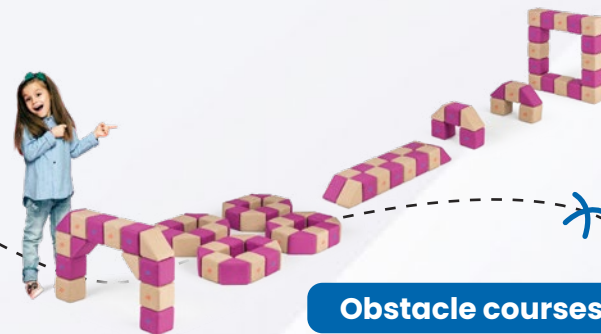

Buildings

Mazes

Obstacle courses

Furniture

Hiding places

Slides

Teraphy

How can JollyHeap® blocks contribute to development?

Developing fine and gross motor skills

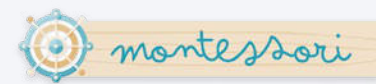

Encourage activities like throwing, carrying, rolling and climbing. Combining blocks enhances dexterity and practices various grips like cylindrical, pincer, and palmar.

SI Therapy and rehabilitation

JollyHeap® transform mundane exercises into enjoyable activities. The ability to transform exercise objects freely arouses curiosity and helps forget about the effort.

Multifunctional tool for STEAM & Montessori learning

Developing teamwork skills

Playing with JollyHeap, children learn to cooperate, listen, and communicate while developing the ability to respect different perspectives and make compromises.

Maths, physics, engineering in practice

Building requires understanding balance and gravity's effects. Children observe how forces impact on a structure and the resulting reactions.

Calming and self-regulation

Softness and insulating properties help soothe the senses.

Sensory stimulation

Elasticity and magnetism provide a variety of tactile sensory inputs.

Diverse activities

Thanks to its modular form, the range of possible activities is virtually unlimited.

*Children respond enthusiastically to JollyHeap blocks, seeing **intense training as fun**. I use them in therapy for children with intellectual disabilities because they are soft, pleasant to the touch and non-threatening. They serve as mats, therapy tables, obstacle courses and more, helping to develop sensory integration, coordination and focus.*

Rafał Królak, Physiotherapist

Therapy without a therapist

Simply manipulating the blocks is therapeutic in itself

By building, climbing, rocking, or jumping between structures, children engage their body, mind and senses.

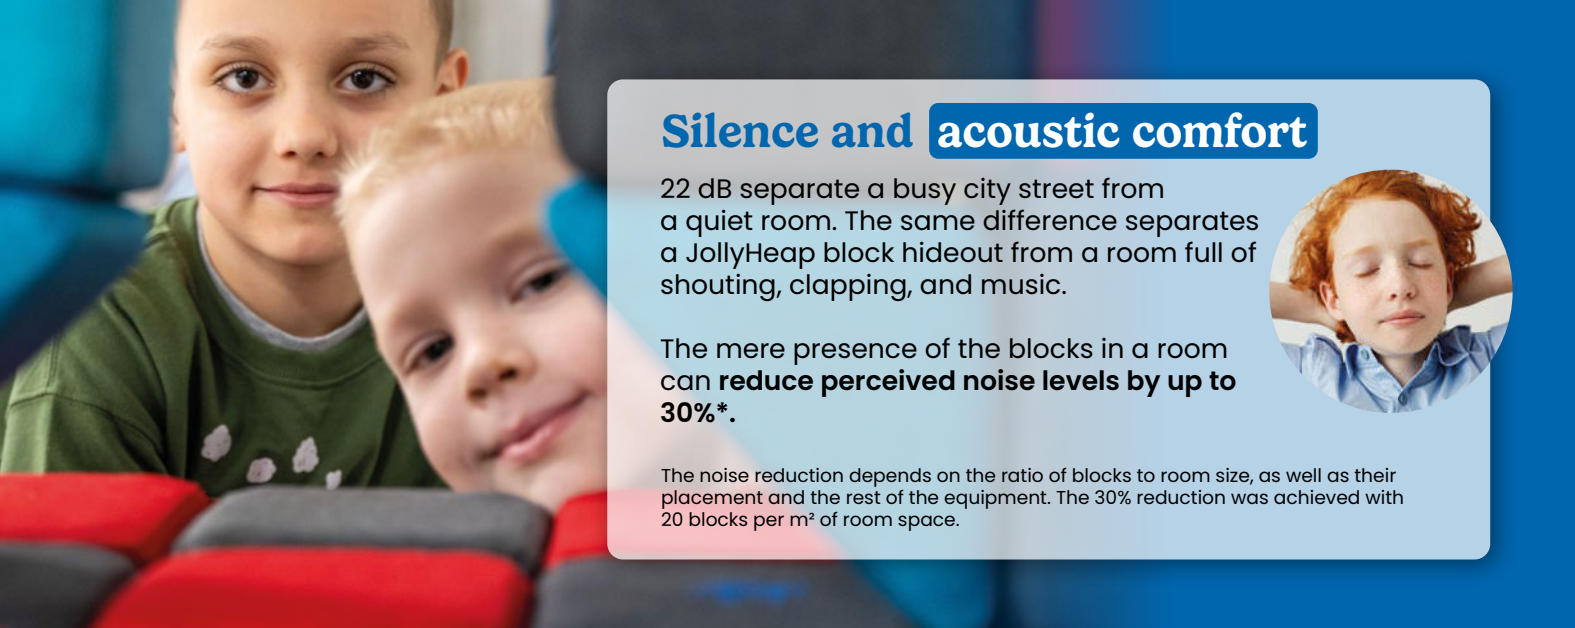

JollyHeap is effort hidden in play

The magnetic resistance felt when separating the blocks provides unique sensory input and activates multiple muscle groups—especially beneficial for children with developmental challenges.

Lead activities like a therapist

With the electronic guide filled with simple, quick-to-implement exercises.

Silence and **acoustic comfort**

22 dB separate a busy city street from a quiet room. The same difference separates a JollyHeap block hideout from a room full of shouting, clapping, and music.

The mere presence of the blocks in a room can **reduce perceived noise levels by up to 30%***.

The noise reduction depends on the ratio of blocks to room size, as well as their placement and the rest of the equipment. The 30% reduction was achieved with 20 blocks per m² of room space.

Children's Safety and Caregiver **Peace of Mind**

The softness and absence of sharp edges make JollyHeap **safe for children and their surroundings**. Caregivers can comfortably lead activities **without worrying about the well-being of the children**.

MEDIUM SET

50 pcs.

Specification:

No. of shapes: 2

No. of blocks:  40 |  10

No. of magnets in the set: 1100

Recommended for toddlers and small groups of children

In the future, you can augment the set with additional shapes

For building structures, hideouts, obstacle courses and furniture.

Build objects in their actual size

The blocks are so large that even a small quantity of them will allow you to create hideouts, animals, or furniture that will dwarf the builders in size!

 34  10

Use a whiteboard or metal surface

Arrange numbers and shapes or use a whiteboard as an additional wall in your hideout. You can also come up with puzzles or play games like tic-tac-toe or connect four.

Move two blocks to achieve the correct result.

Teach math and logic in a fun way for kids. You can create simple equations and instruct the children to rearrange a certain number of blocks to change its result.

40 9

Build in 3D or 2D and develop spatial imagination

23 8

DID YOU KNOW?

You can wash JollyHeap blocks in a washing machine. The materials used are not damaged during washing at a temperature of 30°C.

BASIC SET

100 pcs.

Preview image - 100 cubes in the shape of a cube.

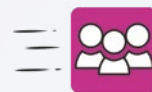

Specification:

No. of shapes: 2

No. of blocks:  70 |  30

No. of magnets in the set: 2100

Recommended for children of all ages

In the future, you can augment the set with additional shapes

For building structures, hideouts, obstacle courses and furniture

Build obstacle courses for development and competition

With limitless modification possibilities, you can create diverse obstacle courses tailored to various developmental needs.

 62  30

DID YOU KNOW?

You can use an obstacle course for competitive play, for example, by timing each participant!

TRUCK

Hit the road on endless highways.
P.S. don't forget to fasten your
seatbelts!

 66  30

COSY VILLAGE

Spend a day in a cosy village
with friends.

 62  30

BISON OF THE WILDERNESS

Explore the boundless
wilderness and discover the
beauty of wild nature on the
back of a massive herbivore!

 70  30

KING OF THE NILE

Transport yourself to Africa, where
the king of rivers patrols the 6500 km
stretch of the Nile.

 54  27

COMFY SOFA

Exhausted after hours of
play? No problem, transform
your creation into a
comfortable sofa and relax!

 70  30

CREATE A DEVELOPMENT ZONE FOR THE LITTLE ONES

70 30

CLIMBING OBJECTS

Climbing naturally supports children's cognitive development, spatial awareness, strength, flexibility and motor coordination.

CREATIVE SET

100 pcs.

Preview image - 100 cubes in the shape of a cube.

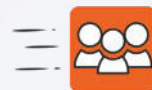

Specification:

No. of shapes: 4

No. of blocks:  76 |  12 |  8 |  4

No. of magnets in the set: 2196

Recommended for children of all ages

In the future, you can augment the set with additional shapes

For creative use, constructing more complex figures and structures

Build intricate figures

4 shapes allow for building lifelike figures and their size and stability enable various activities like sitting, hiding, or interacting with other objects.

DID YOU KNOW?

JollyHeap® blocks are even used in a theatre! That's because they make excellent building materials for scenery.

JOY SET

150 pcs.

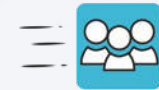

Specification:

No. of shapes: 2

No. of blocks: 100 | 50

No. of magnets in the set: 3200

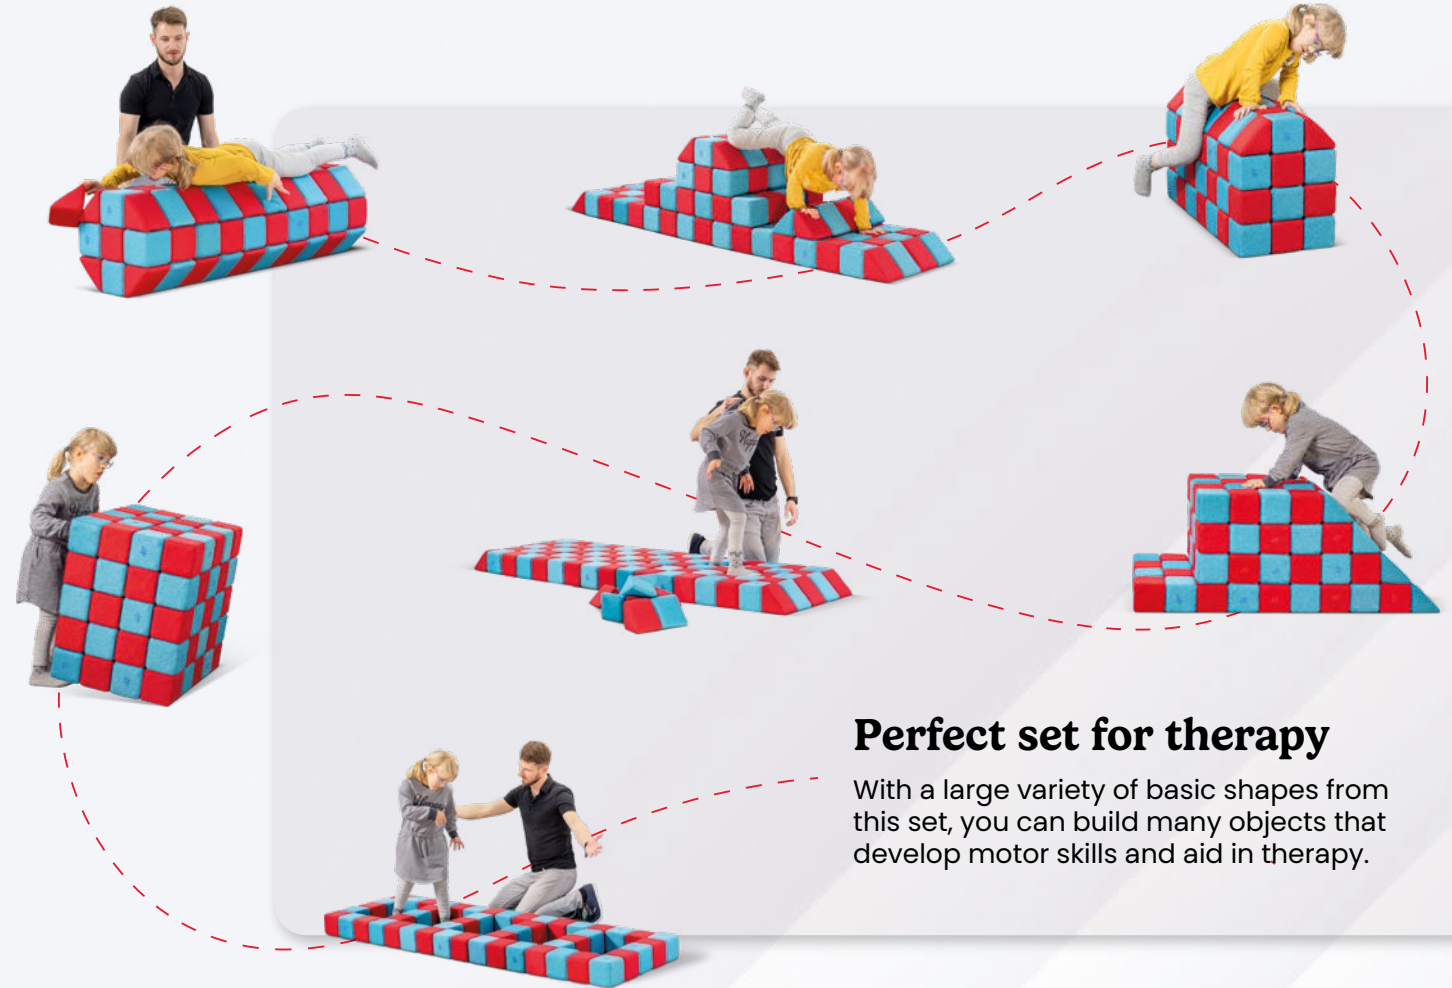

Recommended for toddlers and small groups of children

In the future, you can augment the set with additional shapes

For building structures, hideouts, obstacle courses and furniture.

Perfect set for therapy

With a large variety of basic shapes from this set, you can build many objects that develop motor skills and aid in therapy.

FUN SET

300 pcs.

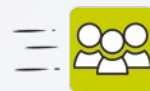

Specification:

No. of shapes: 4

No. of blocks:  228 |  36 |  24 |  12

No. of magnets in the set: 6588

Recommended for small groups of children

In the future, you can augment the set with additional shapes

It allows for free and creative play and the construction of figures, obstacle courses and buildings.

PARTY SET

500 pcs.

Specification:

No. of shapes: 4

No. of blocks:  380 |  60 |  40 |  20

No. of magnets in the set: 10980

Perfect for groups of up to 10 people

Optimal solution for playrooms with medium-sized area

Build bigger and more complex objects like bases, battlegrounds or game and competition facilities

CRAZY SET

700 pcs.

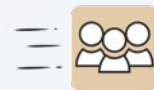

Specification:

No. of shapes: 4

No. of blocks: 532 | 84 | 56 | 28

No. of magnets in the set: 15372

Perfect for large groups of childrens

Easy to separate into several smaller sets

Build structures as big as an elephant. If you put the blocks on top of each other, the tower would be... 84 meters high

ACTIVE SET

1000 pcs.

DID YOU KNOW?

This set will allow 111 kids to build a tower of their height.

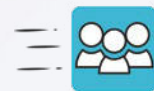

Specification:

No. of shapes: 4

No. of blocks: 760 | 120 | 80 | 40

No. of magnets in the set: 21960

Perfect for large groups of childrens

The best solution for playrooms with a large area

Build whole worlds, sceneries from movies and games, big castles and enormous objects!

Colours

New green colour

4 shapes in the offer

Magnets on all sides

Magnets on all sides except the "cut" side

Magnets on all sides except the "cut" side

Magnets on all sides except the "cut" side

Remember the principle of magnet operation

To attract, the blocks must have opposite poles, so JollyHeap sets consist of two colors. Additionally, for cube-shaped blocks, the pole direction is indicated by embroidery on the block.
